

Senate Continuing Order
 Australian Institute of Marine Science
 1st June 2018 to 31st December 2018

File number	File name	Classification
1677063	Media Release Reef science on Maggie	Media Releases
1677061	Media Release International Researchers gather for think tank on ocean hot spots 29 August 2018	Media Releases
1677049	Media Release High-profile visitors at AIMS for coral spawning Taronga and Smithsonian	Media Releases
1677045	Media Release seismic experiment conducted off WA	Media Releases
1677041	Media release Reef fish show signs of marine debris in their gut Coral trout microdebris	Media Releases
1677040	Media Release Scientists make breakthrough in war against crown of thorns starfish	Media Releases
1677036	Media Release Reef science on Magnetic Island coral bioengineering workshop hosted by AIMS CSIRO	Media Releases
1677019	Media Release robots trialled on Great Barrier Reef GBR	Media Releases
1677000	Media Release GBR restoration symposium RRAP Reef Restoration and adaptation Program	Media Releases
1669551	Media Release Comms Toward a marine science plan for the Northern Territory	Media Releases
1677058	Latest News Marine Safety technology tracks spawning coral slicks 14 December 2018	Latest News
1677057	Latest News Secure International marine scientists join forces to advance coral restoration 12 December 2018	Latest News
1677054	Latest News Best of Coral bleaching research bound in perpetuity	Latest News
1677053	Latest news AIMS researchers step aboard international ocean observatory NOAA vessel Ronald H Brown	Latest News
